

Permit No. TX0004910 for NPDES Authorization to Discharge to waters of the United States.

The applicant's mailing address is: McGinnes Industrial Maintenance Corp.
5837 Northdale
Houston, Texas 77017

The discharge is made into the Intracoastal Waterway, thence into Segment 2424, which is West Bay, a part of the Trinity-San Jacinto Estuary, a water of the United States which is classified for contact recreation, noncontact recreation, propagation of fish and wildlife and navigation, and is located on that water adjacent to Carancahua Lake and the Intracoastal Canal on Hall Bayou Ranch property in the L. T. Yowell Survey, Galveston County, Texas. A fact sheet is not available. The applicant's activity under the standard industrial classification (SIC) code 4464 which results in the existing discharge, is treatment and disposal of industrial waste sludges.

The changes from the heretofore issued authorization to discharge wastewater are:

The permit is modified to require sampling by composite sample, to substitute the TOC parameter for the COD parameter, and to authorize an expansion of the facility to include an additional twenty acres of ponds.
